Town of Hinesburg Water System
Treatment Options Meeting February 2, 2015

As part of the water system improvement projec, we presented two options for water treatment during public meetings before the bond vote November 4, 2014. Since then we have researched and refined pricing on these two options and now have a preferred alternative, nanofiltration. Information on this sytem will be posted on the town website soon (www.hinesburg.org). An informational meeting on water treatment options will be held Monday February 2, at 7:00 pm, town hall.
