January 7, 2016

Members of the Hinesburg Select Board
c/o Trevor Lashua, Town Administrator
Town of Hinesburg
10632 VT Route 116
Hinesburg, Vermont, 05461

Dear Members of the Select board,

My name is Rolf Kielman and I would like to be considered for the vacancy on the Development Review Board. I attach responses to the questions posed on the application form and thank you in advance for your review of my application.

My prior experience on the Planning Commission in the 1990's (6 years), the Village Steering Committee (8 years), currently the Planning Commission (2 years) ... these combined experiences would assist in my possible role on the Development Review Board. My intent is to remain a member of the Planning Commission for the foreseeable future if that is deemed appropriate.

In addition to my experience with Town Boards, I have professional experience in the areas of architecture and planning. I have practiced architecture in Vermont for 40 years. This experience could assist the Board in fully comprehending the character and compliance of pending applications that come before the board.

I thank you for your consideration.

Sincerely yours

Rolf Kielman
166 Fox Meadow
Hinesburg, Vermont 05461

Response to questions on the application form:

1. It is my understanding that the Development Review Board serves to evaluate and potentially approve proposed development projects that come before the board for review. This is a process that is intended to be clear, efficient and fair and it is a process that is based on Hinesburg's Town Plan and the regulations written to reflect the intent of the Town Plan. It would be my goal, as a prospective member of the board, to insure that this process proceeds as described above. I would use my experience, fairness and diplomacy to support this process.

2. Two priority goals of the town plan currently in process relate to the well planned growth of the Town/village center of Hinesburg and the continued improvements to the pedestrian and road networks in the more densely concentrated portions of Hinesburg Village. It would be my goal to participate constructively during the review process to insure that development proposals before the DRB are evaluated such that coherent amendments to the village are achieved at a high quality. Simultaneously these reviews would consider both people and their needs as well as giving proper consideration to the natural resources of our Town and region. Blending good growth with the careful preservation of our natural resources affects all of us and I see the review process as instrumental to insuring that this takes place.

3. The DRB Schedule and the term for this appointment work with regard to my schedule.

4. Please see attached cover letter and resume.
