Meeting Minutes August 13, 2012

VSC Members Present: Michael Buscher, Rolf Kielman, Aaron Kimball, Jane Starkweather, Dona Walker

Members Absent: George Dameron, Catherine Goldsmith

Meeting called to order at 7:10 p.m., Hinesburg Town Hall

There is only one item on the agenda for tonight's meeting.

1. Village Visualization Project: This was our first report back on this project from Mike Buscher (T.J. Boyle Associates, LLC) since our May 14th kick-off meeting for this project. Mike gave the committee a project timeline overview and his best projections for when each of the steps in the project would be completed. The committee talked about some of the constraints that might come into play for this project (e.g. wetlands, development, political considerations). There was a discussion about when stakeholder meetings should begin and who to include. The committee spent time considering how the northern gateway area along Route 116 might look/work as we looked at, and discussed, examples from other developments in and around the Chittenden County area. Looking at the NW district it was recommended that it should have a more residential than commercial feel with a progression of commercial to residential to commercial from Shelburne Falls Road through the NW district south towards Commerce Street and to the former Saputo site.

Next Meeting: August 30th

Respectfully Submitted,
Aaron Kimball
Recording Secretary
