Work Update

Starksboro-Hinesburg (Route 116)

AOT Project No: STP 2930 (1)

Route 116 Culvert Work – Please note that the culvert replacement project that is underway this week in Hinesburg near the Hinesburg/St. George Town Line is not related to the Route 116 road construction project. The local AOT District is performing the work and providing traffic control. Thank you.

Week of September 9th, 2013

This project is nearing completion. Most of the work done this week will wrap up the project with possibly some minor work with little impact on the community the following week.

Hinesburg Village:

GRAVEL SHOULDERS – Crews will be installing gravel shoulders along Route 116 mid week through, possibly, Saturday.

LINE STRIPING – Most of the new traffic markings are placed with the exception of some miscellaneous painting on various side roads along the project. This work will be done throughout the week. (There was a change in the schedule last week that called for the white line to be placed before the gravel shoulders)

BRIDGE JOINT SEALING – Crews will continue working on sealing the bridge joints at the bridge located on Route 116 near Mechanicsville Road and also on the bridge located south of the Village near the Hinesburg Store.

TRAFFIC DELAYS: All operations above may require travel to be reduced to alternating one-way travel in some areas along Route 116 in Hinesburg. Traffic control personnel will be present to maintain

traffic flow. **Motorists should anticipate traffic delays while traveling through the project and plan accordingly. Please allow for extra time in your travel plans.**

Starksboro:

Gravel shoulders will be placed along Route 116 starting Wednesday and extending through Saturday.

Contact Francine Perkins, Public Relations Officer, FRP Enterprises, LLC with any questions or concerns with regards to the project at 802-479-6994 or for a more up to date schedule visit www.RoadWorkUpdates.com.
