I would like to thank Michael Anthony for responding so quickly to my call late last night when the culvert that crosses Lincoln Hill RD was plugged creating havoc at the end of my driveway & the road. It's reassuring to have such a wonderful person who goes the extra mile to ensure prompt attention to a potential very dangerous problem and take immediate action to fix it. He had to clear out the culvert in the dark & return with the grader to fix the road that was eroded from the brook water which rose about 6 feet with all the runoff from torrential rains yesterday. Thanks Again Brenda Farrington 3003 Lincoln Hill RD.
