Subject: Recreation Commission Mission Statement

Hello,

Recreation Commission Mission Statement

The Recreation Commission strives to improve existing programs as well as supporting new recreation options. In addition to maintaining facilities and equipment, the Commission actively pursues additional field space and storage options for the expanding recreational programs. We continue to promote and cultivate volunteer efforts necessary to run recreational programs, while striving to provide programs that are inclusive of all ages, abilities, and interests that can improve and enrich active and fulfilling lifestyles.

Update/status of Recreation Commission Mission Statement

Currently we are in the midst of the Bissonette Recreation Facility Project. To date, this is the most viable option for two playing fields, a baseball diamond, tot playground, parking lot and restroom/storage facility. With our first sketch plan meeting with the DRB last Tuesday, we are navigating the subdivision process. There has been discussion and planning to fundraise for both in monetary and in-kind donations for this project upon approval. This sort of recreation facility and opportunity has been what Hinesburg has been waiting for more than 20 years. The Recreation Commission is committed to this project's success.

With thanks. Jen
