Subject: Forestry Committee

Joe,

This is a quick note to suggest that Mike Potvin would be an excellent addition to the forestry committee. He had attended almost every meeting I have been at in the last six months. He was very helpful to the committee when we were doing the management plan for the Hinesburg town forest. He is willing to help with research and has offered valuable suggestions at our meetings. I hope you consider appointing him to the forestry committee.

Thanks.

Chuck Reiss
