Re: Wastewater Allocation Fletcher Allen Healthcare, Lot 1 Bissonette subdivision off Shelburne Falls Rd

CC: Joe Colangelo

Attached is a wastewater allocation for the Fletcher Allen Healthcare building on Lot 1 of the Bissonette subdivision.

Their request is for 800 gallons per day based on State design flow guidelines.

We currently have 5,000 gallons per day available in the Institutional category of Uncommitted Reserve Capacity.

Recommendation: Approve 800 gallons per day wastewater allocation.
