Memo

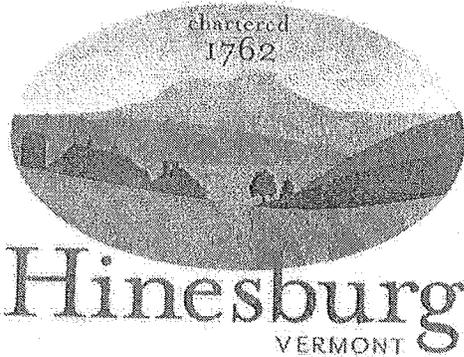

To: Selectboard
From: Rocky Martin 
Date: April 9, 2013
Re: Bristol Bakery Wastewater Allocation
CC: Joe Colangelo

Bristol Bakery, located in building next to Kinney Drug, submitted enclosed Wastewater Allocation application for 3024 gallons per day (including outdoor seating-84 seats at 36 gallons per seat-as per State design flow). At our current rate of \$11.91 per gallon, Allocation Charge would be \$36,015.84.

Kevin Harper of Bristol Bakery has requested a modification to the rate we charge for this wastewater allocation, similar to the situation for Hinesburgh Public House. When we looked into the Will Patten request we found, based on metered data, that restaurants do not use as much water as State design flow guidelines dictate. The Selectboard granted the requested wastewater amount and reduced the Allocation Charge for Hinesburgh Public House to \$12,000 or \$4.10 per gallon requested.

Allocation Charges are generally due when building permit issued; as this is a change of use and building permit has been issued, it should be paid within 30 days.

Recommendation: Approve request of 3024 gallons per day wastewater capacity to Hinesburg Center LLC for Bristol Bakery & Café. Allocation Charge to be \$12,398.40 at rate of \$4.10 per gallon; due by May 15, 2013. As per Municipal Wastewater System Use Ordinance, a late penalty of five percent (5%) of the total amount due shall be charged for payment after the due date.
