RE: 2013 PACIF Equipment Grant Program

Dear Jim,

The Town of Hinesburg is pleased to submit the enclosed application for the 2013 PACIF Equipment Grant Program. We have decided to decline our 2012 grant and resubmit this slightly larger request.

Our application is to purchase a trench box, primarily for use by the Water/Wastewater Dept. but on occasion the Highway Dept. would be able to use it. The primary need is for trench protection when repairing water line breaks, but would also apply to wastewater line or manhole repairs. Potential claims from excavation cave ins are scary to think about and this equipment will provide safety to workers to prevent accidents.

Our request also includes the following safety equipment:

Allegro Blower- to provide continuous ventilation in confined spaces, specifically manholes to prevent inhaling noxious fumes, reducing claims for hospital visits.

Pickup truck crane- to allow lifting/transporting heavy loads such as water hydrants. This will reduce claims from back injuries.

Manhole lid extractor- to allow manhole covers to easily be pried loose and lifted reducing stress and back injuries.

Please let me know if you have any questions

Sincerely,

Rocky Martin

VLCT 2013 PACIF
Equipment Grant Application
A program exclusively for PACIF Members

Allegro® Centrifugal Manhole Blowers

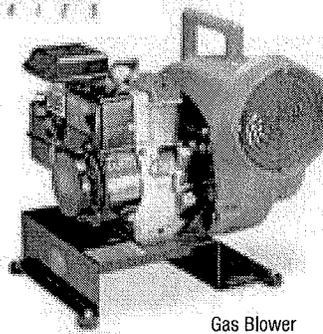

- Rugged construction stands up to tough environments
- Positive and negative airflow

These powerful centrifugal blowers are built for tough applications. They feature polyethylene housings, metal guards and steel fans. Two 8" ports let you hook up duct hose (sold separately on page 1280) for blow-in ventilation or fume extraction. Choose from electric- or gas-powered models.

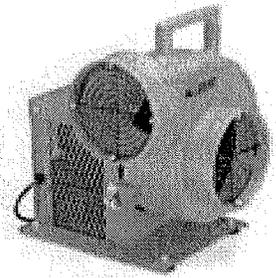

Electric blowers feature a cage-enclosed motor, on/off switch and built-in carrying handle. Choose from standard blowers or high-output blowers that handle larger confined spaces and applications requiring faster purge.

Gas-powered blowers have powerful four-stroke engines, making them ideal for applications where electricity isn't available. Choose from Subaru or Honda models. Subaru blowers feature a 6' exhaust hose extension and Honda blowers feature a 10' exhaust hose extension.

Note: Gas blowers ship motor freight.

Allegro® Air Bag Blowers

- The most convenient blowers on the market
- Axial blower and 15 feet of duct hose all built into one portable bag
- 1-year warranty

70216

Allegro air bag blowers take convenience to a whole new level. These all-in-one systems consist of an axial blower and 15' of duct hose all built into a portable, heavy-duty polyester bag. The bag's zippered ends allow blower use without removal from the bag. Additional openings give the user access to the blower's 2-speed on/off switch, carrying handle and 20-ft electrical cord. Choose from 8" or 12" nine-blade fan sizes. 1-year warranty.

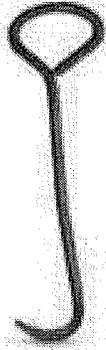

Easy to transport!

3/4" x 36"	6 1/4	27084	59.95	55.75

Aluminum Cover Hooks

- Strong and lightweight

Ideal if you have to carry a cover hook all day long. Pick & hammer handle is useful for cleaning pick holes and loosening the cover. Handle is offset 90 degrees to provide for two-handed operation and better leverage. Very strong.

SIZE	WT (LBS)	STOCK #	EACH
3/4" x 28"	1	75182	\$ 79.95
3/4" x 36"	1 1/4	75179	84.95

Tommy Hooks

- All purpose
- 5/8" hex alloy steel
- 21-1/2" long

Opens virtually any type of manhole since it has a tapered shank on one end and a beveled hook on the other end. Made of very strong hex alloy steel.

SIZE	STOCK #	EACH
5/8" x 21 1/2"	27015	\$ 25.00

Product SPOTLIGHT

Combination sledgehammer and pick/pry bar!

**BEST!
SELLER!**

Manhole Lid Extractors

- Breaks frozen manhole lids free and pulls them off as well!
- Heat-treated cast-steel head and unbreakable Nupla® fiberglass handle

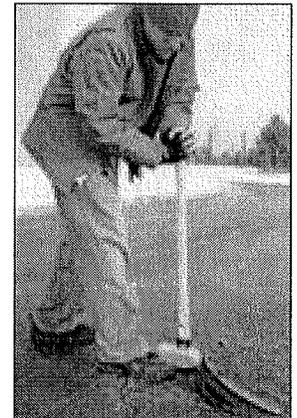

Sewer system operators helped design this unique tool for opening and removing manhole covers. They found a need for a single tool that would break frozen lids free and pull them off as well. Use the 12-lb sledgehammer end to break loose stuck covers. Use the 8-lb sledgehammer for concealed picks.

For gripping the lid, the tapered pick end fits 5/8" and larger drain holes and most pick slots. A serrated edge strengthens the pick end and eliminates the possibility of the tool becoming bottlenecked in the cover. Heat-treated cast-steel head and Nupla fiberglass handle with ribbed hand grip.

8-lb model is good for concealed picks

Product Details

This Hitch-Mounted Pickup Truck Crane provides extra muscle for making quick work of heavy lifting jobs.

FEATURES + BENEFITS

- Attaches directly to Class III (or higher) trailer hitch with no drilling or bolting required
- Self-leveling feature keeps load from swinging
- Hand brake prevents dangerous freewheeling while lowering load
- Works on either side of pickup
- Easy to attach or remove
- Will not interfere with truck bed access
