Subject: PUBLIC SAFETY PROJECT - DRB Submittal

Jon,

I will not be able to attend tonight's Select Board meeting. However, I want to go on record in support of the submission that the Public Safety Project Committee has prepared for the DRB. There remain many of the details to be decided upon, but this submission includes all the factors of the overall project that are relevant for the DRB's consideration.

In my opinion, the Committee has worked well together so far and VIA is doing the work to keep us on both the time schedule and the budget.

I expect, though there will be, and should be, discussion, the Select Board will give your approval to proceed with the submission.

jk
