# Memo

To: Joe Colangelo  
From: Rocky Martin   
Date: June 18, 2013  
Re: Hannaford Wastewater Allocation

Hannaford engineers O'leary Burke calculated wastewater capacity as 2160 gallons per day using state design flow guidelines. Lot 15 has a current allocation of 200 gpd, they requested an allocation of 1960 gpd which was granted 2/27/13.

They applied to state for water/wastewater permit and state determined they needed additional allocation to account for in-store bakery, they now request an additional 280 gallons per day wastewater allocation to comply with revised state design flow guidelines.

Recommendation: We currently have 17,194 gallons per day in uncommitted commercial/enterprise capacity. Recommend approval of this request.

Their request for water/wastewater extension permit contained conditions that require them to resubmit if their plans change, especially for rerouting the wastewater main that bisects lot 15 in Commerce Park.

TOWN OF HINESBURG  
WASTEWATER ALLOCATION REQUEST

Applicant Name and Address:

Martin's Food of South Burlington, Inc. (c/o Bill McKenney)

PO Box 1000

Portland, ME 04104

Telephone Number: (207) 883-2911

Property Owner(s) Name and Address:

Giroux Family Trusts - Bernard A., June T., Victor T., and Romona

9318 Rt. 116, Hinesburg, Vermont 05461

Project name, location and brief description (specify number of living units or type of commercial or industrial use):

The proposal is to construct a 36,000 +/- square foot Hannaford supermarket, the supermarket will have a small area where hot food is prepared and will have a separate bakery, these two uses will require an additional 280 gpd of wastewater in addition to the 1,960 gpd allocated on 2/18/13.

Based on information above, wastewater allocation requested: 280 gallons per day

Total Allocation 2240 gpd

Signature of Applicant: Bill McKenney Date: 6/14/13

NOTE: See attached for copy of Article 6 of the Hinesburg Sewer Allocation Ordinance
