- 4) Please introduce yourself to the Selectboard by providing a short cover letter and/or a resume.

Application for Appointment to the Energy Committee

Town of Hinesburg, Vermont

- 1) I worked in the energy conservation field as an energy auditor and program manager for many years before I moved to Hinesburg in 1995. I feel I can contribute to the Energy Committee Mission in many ways. I try to keep up with changes in technology, so I can educate people about how to tighten and insulate their homes as well as how to lower their electric bill. I will be happy to do research on subjects pertaining to energy use and conservation as well as design ways to promote awareness of the need to use energy resources wisely.

- 2) Except for mitigation of traffic congestion, promoting alternative transportation options, and creating interconnected transportation networks, which all touch on vehicular fuel use, I do not see much that relates to the goals the Energy Committee has been formed to promote. I would expect that in the next rewrite of the Town Plan, there would be more of a focus on energy matters as a result of Energy Committee efforts.

- 3) I will be able to attend regularly scheduled meetings and, as far as I know, will be able to serve on the Energy Committee for the full 3 year term.

Hinesburg, VT 05461

Dear Members of the Selectboard,

Most of you have known me for many years since I have been an active member of our community. I most recently served on the Planning Commission for 13 years, and before that served on the Conservation Commission. I am a volunteer driver for Hinesburg Rides and lend a hand on many projects in town.

I feel that the Energy Committee has an important mission. Much of the way I live is tied to energy conservation and I am eager to serve the Town as a member of the Energy Committee.

Sincerely,

A handwritten signature in cursive script that reads "Carrie Fenn".
