Subject: Grants
Attachments: LPR.pdf; Radios.pdf; Morphotrak.pdf

Attached are the three quotes for the grants.

The radios are not an issue. We have to have them and they are no cost to the town.

The License Plate Reader. The grant comes fully funded with four years of maintenance provided. There are no commitments to the town after the four years. There is no down side to this and as Chief, I am requesting this be approved. Regardless of personal beliefs, this will be an asset to public safety and our use of the LPR will always be ethical and in line with the policies of the Vermont State Police.

The quote for the Morphotrak Fingerprint only needs the first two pages to the SB. The annual maintenance contract for the device is \$4412 after the first two years. I do not have any recommendation to the SB and it comes down to a really expensive annual line item and if they want to fund the cost.
