Subject: Old Police Station

I can't go to the meeting, but I feel this building should be sold. We, the tax payers, were told that this building required too much work to be saved for continued use for the police station. So why is it being considered to keep this building now? This is not a historical building. We the tax payers should not have to put more money into this building or have another building that needs to be maintained and not on the tax list.

Thank you.
