FROM: Frank Koss
SUBJECT: St. George Contract

Last year, Joe Colangelo was working with the Town of Huntington for a possible contract for limited police services. Although this did not follow through, the Town of St. George also made a request for a proposal for traffic enforcement. I met with their Selectboard and subsequently attended their town meeting. As a result, a draft contract has been presented to provide approximately seventy-two hours of traffic enforcement. Due to the geographical location of St. George to our town, I recommend complete support of the contract.

This contract was developed with provisions to reimburse the town for our costs. It takes into account the departments hourly costs and additional dispatch costs. The officer sent to St. George will be at our discretion based on shift coverage and at no time will Hinesburg not have an on duty officer in town.

I believe that this proposal is in the best interest of the town and although not a large amount of money to our budget, will bring in revenue with no down side to our town.
