Hinesburg Selectboard Members,

I'd like to apply to serve on the planning commission. I'm interested in being a member of the planning commission because the future of our community is important to many aspects of my life. I believe I would add a unique point of view to the commission. I have lived here 30 of my 35 years, and if appointed would be one of the younger members of the commission. I am a local business owner and farmer. Thank you for considering me for the commission.

Sincerely,

James Donegan
