Hello,

I'm happy to submit the attached application for a grant from the Land Conservation Fund. Hinesburg Land Trust and Vermont Land Trust are working to conserve the Lafreniere farm located on Route 116 north of the village. This project will preserve this very visible open space, ensure continued farming in this area and help transfer these lands to the next generation of dairy farmers.

Our timeline is compressed and we need to close on this land by the end of the year. Fortunately, this is one of the last pieces to complete the funding! We ask that you act quickly to approve the grant, both to ensure the closing happens in a timely way and to indicate community support for the project as we approach other donors.

I'm available to answer your questions about the project and attend a meeting to review the application.

Thanks for you consideration,

Tom Dillon
