

We, the undersigned, are asking that repairs and maintenance of Baldwin Road.

be done as soon as possible.

15 years ago the vehicle count exceeded the state maximum requirement. The road was prepped for paving but was not done. The increasing amount of traffic causes very rough and unsafe conditions. The damage and wear on our vehicles makes traveling, as we must here, very difficult and expensive.

Baldwin Road must be paved or graded more often until this work is completed. Burritt and Drinkwater roads need grading much more often, also.

The taxpayers who use these roads deserve much better service.
