- 1) Review the Mission Statement of the Commission, Board, or Committee you are applying to serve on and explain how you will aid the group achieve said Mission.

As a member of a Vermont Public Benefit Corporation, I'm closely tied to using business in a socially responsible way. With 20 years of experience in business development across sectors, I also have the capacity to understand the ways we might support economic development here in Hinesburg. My MBA specialized in systems thinking and sustainable business will be an asset to the Committee's triple bottom line pursuits, social, environmental, and economic capital

- 2) Please share your thoughts about implementation of at least two of the Top Priority Goals and Recommendations in the latest Town Plan (Section 9, page 75), as it relates to the Commission, Board, or Commission on which you are applying to serve.

There's an overt statement regarding adding economic development to the next town plan, I'd clearly be a part of composing that as a member of the Econ Dev Committee. When it comes to transportation and congestion, there are clear impacts on quality of life and economic development. With my systems thinking background, I'll be able to work across committees to help move things forward that take a broad range of factors into consideration. I'd like to explore unique solutions to this problem, including the development of a coworking / incubator space in Hinesburg.
